PROFILE

Results-driven Mid-Level Laravel Developer with strong expertise in PHP/Laravel, API development, and database management (MySQL, MongoDB). I build high-performance, scalable web applications, focusing on robust backend solutions and clean, maintainable code. Committed to collaborative problem-solving and timely project delivery.

WORK EXPERIENCE

Again Soft | Web Developer | August, 2025 - current

- **Learning Management System:** A comprehensive Learning Management System built with Laravel, featuring course, quiz, and certificate modules. | [View](#)

Code24 Pty Ltd | Remote Web Developer | January, 2025- July, 2025

- **Code24 Website**: Developed and maintained the main company website using Laravel and Tailwind CSS, working remotely for an Australian company. | [View](#)
- **Care and Connects** - A person-centered application for individuals with disabilities, their families, and stakeholders in Australia, built using Laravel, Bootstrap, and jQuery, with a focus on unwavering care. | [View](#)

Freelancing | Remote Web Developer | January, 2023 - Current

- **Bd Nirapad:** Developed a secure platform using Laravel, Bootstrap, and jQuery to facilitate safe money transfers and mobile recharges from foreign countries to Bangladesh. | [GitHub](#) | [View](#)
- **Company Service Selling Platform**: A Laravel-based service platform, built from Figma designs to a pixel-perfect front-end and robust backend, emphasizing secure transactions and intuitive UI/UX. | [GitHub](#) | [Figma](#)
- **POS System**: A Laravel-based POS system that manages product lifecycles, with a unique commission calculation based on a "carat PC" metric. | [GitHub](#)
- **University Project Management**: An integrated platform for students, companies, and supervisors to efficiently manage and track projects, theses, and internships. | [GitHub](#)

i'Social Limited | Web Application Developer | January, 2022-December, 2022

- **Task-Based Project Management System:** Developed a comprehensive system using Laravel, TypeScript, and Vue.js to enable real-time task assignment and progress tracking for project managers and developers.
- **SME Foundation Project:** Built an agency portfolio platform, including a dynamic blog and specialized division/district-based shop sections, also utilizing Laravel, TypeScript, and Vue.js.

PROJECT

Shop E-commerce | GitHub | View

Built a feature-rich e-commerce platform with product listing, cart, checkout, and user authentication using React, Tailwind CSS, and TypeScript.

Organic Food E-commerce | GitHub

Developing a full-stack e-commerce platform for organic food, integrating Laravel, React, Inertia.js, and TypeScript. Focuses on scalable architecture and performance optimization.

EXPERTISE

- **Backend & APIs:** PHP, Laravel, Strapi, OpenCart
- **Frontend Development:** React.js, Vue.js, Next.js, Tailwind CSS, Material UI, ShadCN/UI
- **JavaScript Ecosystem:** JavaScript, TypeScript, InertiaJS
- **Database:** MySQL
- **React Libraries:** Redux, React Router, React Query, React Table, React Hook Form, Framer Motion
- **Design Tools:** Figma, Canva

EDUCATION

- Bachelor of Science in Computer Science and Engineering (CSE)
  Europian University of Bangladesh | 2022 - Program paused

- Diploma in Engineering
  Magura Polytechnic Institute | 2016-2020

- Secondary School Certificate (SSC)
  Technical School & collage, Chuadanga | 2014-2016

TRANING

- **Reactive Accelerator**
  Platform: Learn with Sumit | 6 Months
  Topic : Tailwind, React, React Router, React Query, React Hook Form, Framer Motion, Authentication with Firebase, Styled Component, Redux, Next.js, NextAuth.js, TypeScript

- **Think in a redux way**
  Platform: Learn with Sumit

- **Web Development**
  Platform: Creative It Institute | 6 Months
  Topic : php, Laravel, MySql, Git, Github
