PROFESSIONAL SUMMARY

Laravel Full-Stack Developer with 3+ years of experience building business applications using PHP, Laravel, React, Inertia.js, TypeScript, and MySQL. Experienced in REST APIs, database design, Eloquent ORM, authentication/RBAC, and Repository/Service architecture. Delivered production applications across CRM/ERP, logistics, financial, inventory, and workflow-management domains, including remote experience with an Australian company.

TECHNICAL SKILLS

- **Backend & Architecture:** PHP, Laravel, REST API, Eloquent ORM
- **Frontend Development:** React.js, Inertia.js, TypeScript, JavaScript, Tailwind CSS, Vue.js, Next.js.
- **Databases & Tools:** MySQL, MongoDB, Docker, Git & GitHub, Claude.
- **Workflow & Operations:** Client Requirement Analysis, Technical Documentation (Notion)
- **Architecture & Engineering:** MVC, OOP / SOLID, Repository Service Pattern, Authorization / RBAC, PHPUnit, Clean Code, Queue Management.

WORK EXPERIENCE

Web Developer — Again Soft *Aug 2025 – Present*

- Engineered custom CRM and ERP systems using Laravel and React for lead management, quotation processing, and enterprise workflow automation.
- Architected a China-to-BD cargo logistics platform and a real-time inventory management system for order and stock tracking.
- Built an LMS, matrimonial application, and custom OpenCart solutions with AJAX filters and product builders.

Remote Web Developer — Code24 Pty Ltd *Jan 2025 – Jul 2025*

- Developed and maintained Laravel-based web applications using Tailwind CSS for an Australian client environment.
- Contributed to **Care & Connects**, a person-centered disability support application.
- Implemented secure authentication and granular Role-Based Access Control (RBAC).

Remote Web Developer (Freelance) — Self-Employed *Jan 2023 – Present*

- Developed **BD Nirapad**, a Laravel-based secure money-transfer platform with business-specific transaction workflows.
- Built a custom Laravel POS system implementing carat-based commission calculations and domain-specific business rules.
- Developed a university project-management platform connecting students, academic supervisors, and external companies through role-specific workflows

Web Application Developer — iSocial Limited *Jan 2022 – Dec 2022*

- Developed a real-time task and project management platform using Laravel, Vue.js, TypeScript, and MySQL.
- Implemented role-based dashboards and task workflows for different application users.
- Developed dynamic content and location-based shop modules for the SME Foundation platform.

PROJECTS

Launverse – Business Solutions | [View](#)

Tech: Laravel, React, Inertia.js, Tailwind CSS, MySQL, **Claude (AI-assisted development)**

- Architected a multi-tenant laundry management platform with outlet-specific operations, customer-tier pricing, asset tracking, and RBAC.
- Developed order management, inventory, expense, accounting, and CRM workflows including follow-ups and appointment scheduling.
- Implemented Laravel backend business logic with React, Inertia.js and Tailwind CSS.

Care & Connects – Disability Support App | [View](#)

Tech: Laravel, Bootstrap, jQuery, Vue.js, MySQL

- Built a person-centered disability support application for an Australian client with care-coordination and stakeholder communication features.
- Implemented secure authentication, authorization, and workflows for sensitive user information.

Custom CRM (Requirement Collection, Sales & Quotation Management) | [View](#)

Tech: Laravel, React.js, Inertia.js, TypeScript, MySQL

- Developed a custom CRM covering requirement collection, follow-up, meeting management, and quotation creation.

Task-Based Project Management System

Tech: Laravel, Vue.js, TypeScript, MySQL

- Engineered a comprehensive system for real-time task assignment and progress tracking.
- Created role-based dashboards for managers, developers, and stakeholders.

EDUCATION

- **B.Sc. in CSE** — European University of Bangladesh (2021–2025)
- **Diploma in Engineering** — Magura Polytechnic Institute (2016–2020)

TRAINING & CERTIFICATIONS

- Reactive Accelerator (Learn with Sumit): React, Redux, Next.js, NextAuth.js, TypeScript
- Web Development (Creative IT Institute): PHP, Laravel, MySQL, Git
